3.4 REMUNERATION REPORT

In this report, the remuneration for the Management Board and Supervisory Board is described. The first part contains a letter from the Chairman of the Appointment and Remuneration Committee ('A&RC') dealing with

remuneration matters, a description of the remuneration policy for the Management Board, how it was implemented for the Management Board members over 2020 and various other Management Board remuneration information. The second part describes the remuneration policy for the Supervisory Board and how it was implemented over 2020.

Letter from the Chairman of the Appointment and Remuneration Committee dealing with Remuneration Matters

Dear reader,

2020 was a turbulent year for SBM Offshore. Whereas 2020 initially looked like a year of growth, the sudden global effects of the COVID-19 pandemic brought a complex challenge for SBM Offshore and its employees. Despite these challenging circumstances, the Company delivered excellent results. The focus on the Company values, Care, Entrepreneurship, Ownership and Integrity served as guidance for both management and all employees. The Supervisory Board is grateful for the commitment and performance of all SBMers during this challenging period of time.

The strategy of the Company showed to be the right one: strong in executing projects and safe and reliable operations ongoing in the traditional business while gradually including more renewable solutions. To execute the strategy more effectively, the Management Board took decisive actions to adjust the organization and to reduce costs. At the same time, investments in Research and Development, especially to support the energy transition and lower emissions, were made as planned.

During the 2020 AGM, CEO Bruno Chabas was re-appointed with a 99.9% vote. This re-appointment included a Base Salary increase of 20%. The implementation of this increase was deferred to a later date when the Supervisory Board would have better visibility on the impact of COVID-19. With more visibility during the course of the year and considering the financial results and the position of the Company, the Supervisory Board resolved in November to implement the increase of Bruno Chabas' Base Salary effective January 1, 2020.

This year's remuneration report is based on Remuneration Policy 2018 (RP 2018), which was adopted by shareholders in 2018 with ca. 70 percent of the votes. However, due to legislation implementing the EU Shareholder Rights' Directive in the Netherlands, remuneration policies now require the approval by 75% of shareholder votes.

During the AGM in April 2020, the shareholders voted positively on the Remuneration Report 2020, expressing support for the execution of RP 2018 in 2020. During the same meeting, RP 2018 was proposed to our shareholders again. This RP 2018 was proposed to be amended only to implement legally required changes. Although the proposal again was endorsed with 70% of the votes, it did not reach the required 75% of the votes. As a result, a new proposal is to be made to shareholders in 2021. For 2020, RP 2018 supported by 70% shareholders remained applicable. We do not repeat in the same detail all rationale for the RP 2018 policy in this chapter as a detailed explanation can be found in the 2019 annual report.

The Supervisory Board reviewed the elements of the existing policy and engaged with shareholders and other stakeholders for feedback on the remuneration policy. This input has been translated into a proposal for a new remuneration policy to be submitted to the 2021 AGM (RP 2022).

Input from stakeholders included feedback by some shareholders that they are not satisfied with the lack of a concrete underpin in place for the Long-Term Incentive (LTI) in the form of the Value Creation Stake (VCS). Other feedback related to the selection of companies used for the external reference group to determine Management Board pay levels. Some stakeholders raised questions about the quantum of the Management Board's remuneration.

The underpin and the reference group feedback will be addressed in the proposal for RP 2022. Anticipating the proposal for a new policy, the Supervisory Board already applied a more concrete underpin test prior to the grant of the 2021 Value Creation Stake. The Supervisory Board is not proposing a change to the overall quantum because it regularly monitors the international competitive landscape within which we compete for talent.

As part of the reconsiderations, the Supervisory Board confirmed its belief that the most direct and effective linkage of executives' interests and long-term shareholder value is in the form of long-term share ownership by executives through the Value Creation Stake. In line with the long-term intention of this instrument, shares are subject to a holding period of five years. This way the VCS aligns with the aim to create long-term value for all stakeholders, including members of the Management Board.

Without losing focus on the importance of long-term value creation, short-term performance is rewarded by the Short-Term Incentive (STI). The STI performance measures – EBITDA, Growth, and HSSE are based on key success factors for the Company. Despite the challenging circumstances, performance as measured by the STI performance measures was very good. This is detailed in sections 3.4.2 and 3.4.3 of this report.

The Supervisory Board remains committed to relevant and clear remuneration in line with best international practices. We are providing additional information in this report to improve transparency. I look forward to discussing the remuneration policy, actual remuneration as well as any other questions arising from this report at the 2021 AGM.

Chairman of the Appointment and Remuneration Committee dealing with Remuneration Matters

3.4.1 MANAGEMENT BOARD REMUNERATION POLICY

RP 2018 was adopted at the 2018 AGM and became effective January 1, 2018. Full details and the principles and rationale for the RP 2018 are available on SBM Offshore's website in the remuneration policy section under Corporate Governance.

The Company remunerates members of the Management Board for long-term value creation. RP 2018 is based on competitive remuneration aligned with the long-term performance of SBM Offshore. It is built on six reward principles: simplicity, flexibility, predictability, competitiveness, alignment and, most importantly, driving the right results.

Shareholder Rights' Directive and proposal for amendment to RP 2018

In December 2019, new legislation entered into force, implementing the EU Shareholder Rights' Directive (SRD II) in the Netherlands. During the AGM 2020, changes to RP 2018 were proposed to bring the policy into accordance with the new legislation. The AGM voted against the adoption of this revised policy. A new remuneration policy will be proposed during the 2021 AGM. The details of this new policy will be included in the agenda of the 2021 AGM.

This remuneration report has been drafted in accordance with SRD II as implemented in the Netherlands.

Explanation of RP 2018

SBM Offshore believes the oceans will provide the world with safe, sustainable and affordable energy for generations to come. Our mission is to share our experience to make it happen. In executing our strategy we are guided by our Core Values: Integrity, Care, Entrepreneurship and Ownership.

The underlying principles of the remuneration policy of the Management Board of SBM Offshore N.V. support the vision and ambition and aim for long-term value creation of the Company through the Value Creation Stake balanced with pay for performance through the Short-Term Incentive (STI). Sustainability is an integral part of the STI performance areas (through Health, Safety, Security and Environment).

The Company's strategy is aimed at optimizing, transformation and innovation of SBM Offshore's business processes in order to grow in size and create value. This is reflected in the STI performance areas of Profitability, Growth and HSSE (Sustainability). Through the STI performance areas, Management Board remuneration is directly linked to the success of the Company and the value delivered to shareholders.

Employment conditions and pay of the Company's employees within SBM Offshore are being taken into account when formulating the remuneration policy, for instance regarding the STI performance areas and payment dates. Employment conditions for Management Board members may differ from those applicable to employees, also because Management Board members have a service contract rather than an employment relationship. The principles of the remuneration policy are used as a guideline for employment conditions at SBM Offshore as a whole.

The four components of the remuneration package of Management Board members under RP 2018 are: (1) Base Salary, (2) STI, (3) Value Creation Stake and (4) Pension and Benefits.

REMUNERATION POLICY STRUCTURE MANAGEMENT BOARD

REMUNERATION POLICY 2018		DETAILS
Base Salary	Fixed component	Level set based on both internal and external relativities
STI	Percentage of Base Salary as short term cash incentive (100% at target for CEO and 75% for other Management Board members)	Identical targets for all Management Board members (based on profitability, growth and HSSE including sustainability)
Value Creation Stake	Award of locked-in shares: 175% of Base Salary	This award is conditional upon Supervisory Board approval - Immediate vesting plus 5-year holding requirement
Pension	Pension allowance equal to 25% of Base Salary	In principle, Management Board members are responsible for their own pension arrangements
Benefits	Benefits include car allowance and health/ life insurance	Other benefits depend on individual circumstances and may include a housing allowance

1. BASE SALARY

The Base Salary is set by the Supervisory Board and is a fixed component paid in cash. Depending on internal and external developments such as market movements, the Supervisory Board may adjust Base Salary levels.

2. SHORT-TERM INCENTIVE

The STI is designed to create a rigorous pay for performance relationship and is a conditional variable component. The STI key performance indicators focus on three performance areas: (i) Profitability, (ii) Growth and (iii) HSSE¹⁷. The Supervisory Board, upon the recommendation of the A&RC determines for each of the performance measures the specific performance targets and their relative weighting in the beginning of the financial year.

STI	
PERFORMANCE MEASURES	WEIGHTING
PROFITABILITY	40 - 60%
GROWTH	20 - 40%
HSSE	15 - 25%
TOTAL	100%
DISCRETIONARY JUDGEMENT SUPERVISORY BOARD	- 10%

¹⁷ Health, Safety, Security, Environment

The three performance areas are specified as follows:

- Underlying and directional EBITDA is used as an indicator of overall short-term profitability.
- Order Intake and/or the number of FEEDs is used as an operational indicator of top line growth.
- HSSE regards Sustainability performance. This includes targets around the UN Sustainable Development Goals.

If the Supervisory Board is of the opinion that another measure would be more qualified as an indicator for profitability, growth or HSSE, it will inform the shareholders in the remuneration report. Performance measures will never be adjusted retrospectively.

Performance ranges – threshold, targeted and maximum - are set for each of the key performance indicators. The STI is set at a target level of 100% of the Base Salary for the CEO and 75% of the Base Salary for any other member of the Management Board. The threshold pay-out is at 0.5 times target and maximum pay-out will not exceed 1.5 times target. A linear pay-out line applies between threshold and maximum. Below threshold, the pay-out is zero.

The Supervisory Board appreciates that transparency and accountability require a precise STI measurement. As decided in 2019, the Supervisory Board will no longer apply discretion to increase the outcome of the STI. The Supervisory Board may still adjust the outcome of the STI down by up to 10%, which adjustment will be reported on in the remuneration report.

At the end of the performance year, the performance is reviewed by the Supervisory Board and the pay-out level is determined. The performance measures, target setting, and realization are published in this remuneration report. For reasons of commercial and/or market sensitivity, these details are not published at the start of the performance period. In general, details regarding order intake will not be shared. The STI is payable in cash after the publication of the Annual Report for the performance year.

3. VALUE CREATION STAKE

The Value Creation Stake is an award of restricted shares to create direct alignment with long-term shareholder value. The awarded shares must be held for at least five years. After retirement or termination, the shares cannot be sold for the duration of two years. The gross annual grant value for each of the Management Board members is 175% of Base Salary. The number of shares is determined by a four-year average share price (volume-weighted). The Value Creation Stake has a variable element to the extent that the share price develops during the holding period. The Supervisory Board retains the discretion not to award the

Value Creation Stake in exceptional market or business circumstances ('underpin').

All members of the Management Board are required to build up Company stock of at least 350% of Base Salary. The value of the share ownership is determined at the date of grant.

4. PENSION AND BENEFITS

In principle, the Management Board members are responsible for their own pension arrangements and receive a pension allowance equal to 25% of their Base Salary for this purpose.

The Management Board members are entitled to additional benefits, such as a company car allowance, medical and life insurance and (dependent on the personal situation of the Management Board member) a housing allowance.

KEY ELEMENTS EMPLOYMENT AGREEMENTS

Each of the Management Board members has entered into a four-year service contract with the Company, the terms of which have been disclosed in the explanatory notice of the General Meeting of Shareholders at which the Management Board member was (re-)appointed. Next to his service contract, Bruno Chabas has an employment contract with Offshore Energy Development Corporation S.A.M., in relation to a split pay-out of his remuneration.

Adjustment of remuneration and claw-back

The service contracts with the Management Board members contain an adjustment clause giving discretionary authority to the Supervisory Board to adjust the payment of the STI and LTI (as granted under RP 2015), if a lack of adjustment would produce an unfair or unintended result as a consequence of extraordinary circumstances during the period in which the performance criteria have been, or should have been achieved. However, the Supervisory Board has determined that upward adjustments will not be considered as part of RP 2018 based on shareholder feedback.

A claw-back provision is included in the services contracts enabling the Company to recover the Value Creation Stake, STI and/or LTI (as granted under RP 2015) on account of incorrect financial data.

Severance Arrangements

The Supervisory Board will determine the appropriate severance payment for Management Board members in accordance with the relevant service contracts and Corporate Governance Code. The current Corporate Governance Code provides that the severance payment will not exceed a sum equivalent to one times annual Base Salary. This also applies in a situation of a change in control.

3 GOVERNANCE

Loans

SBM Offshore does not grant loans, advance payments or guarantees to its Management Board members.

3.4.2 EXECUTION OF THE MANAGEMENT BOARD REMUNERATION POLICY IN 2020

The Supervisory Board is responsible for ensuring that the remuneration policy is appropriately applied and aligned with the Company's objectives. The remuneration level is determined by the Supervisory Board using a comparison with Dutch and international peer companies, as well as internal pay ratios across the Company.

REFERENCE GROUP

In order to determine a competitive Base Salary level and to monitor total remuneration levels of the Management Board, a reference group of relevant companies in the industry (the 'Reference Group') has been defined. Pay levels of the Management Board members are benchmarked annually to the Reference Group. In the event a position cannot be benchmarked within the Reference Group, the Supervisory Board may benchmark a position to similar companies. In 2020, the Reference Group consisted of:¹⁸

¹⁸ Due to changes such as bankruptcy and delisting, Diamond Offshore Drilling, McDermott International and Volker Wessels are no longer part of the reference group. The reference group currently exists of 14 companies.

Arcadis	Oceaneering International	Vopak
Boskalis	Petrofac	Wood Group
Fugro	RPC Inc	
Helmerich & Payne	RPS Group	
IMI	Superior Energy Services	
Noble Corporation	Transocean	

Also in 2020, the Supervisory Board assessed the Management Board's remuneration in relation to the Reference Group's pay levels, revenue and market capitalization.

The final determination of pay levels for the Management Board also took into account various scenario analyses to assess the impact of different performance levels and share price developments on the total remuneration paid.

PAY RATIOS

The Supervisory Board also includes internal pay ratios when assessing Management Board pay levels.¹⁹ In 2020, the average total employee expenses was EUR114 thousand. The pay-ratio's of each of the Management Board members over 2020 and 2019 are displayed in the following graph.

¹⁹ The pay-ratio is calculated as the total accounting costs of remuneration for each of the Management Board members expressed as a multiple of the average overall employee benefit expenses for a given year (excluding employees working for JVs and associates).

1. BASE SALARY

As part of the re-appointment of Bruno Chabas during the 2020 AGM, it was resolved to increase his Base Salary from EUR800 thousand to EUR960 thousand effective from January 1, 2020. This increase was announced in the Q3 trading update press release. In November 2020, the Supervisory Board resolved to increase Erik Lagendijk's Base Salary from EUR450 thousand to EUR518 thousand effective from January 1, 2020. The 2020 and 2019 Base Salary levels are shown both in the table at the beginning

of section: Management Board Remuneration in 2020 and in the table Remuneration of the Management Board by member in section 3.4.3.

2. SHORT-TERM INCENTIVE

For 2020, the Supervisory Board set the following performance measures and corresponding weighting, which led to the following performance realization. For full details regarding the performance under the STI, please refer to the Performance STI 2020 table in section 3.4.3.

PERFORMANCE REALIZATION*

	PERFORMANCE MEASURE	RELATIVE WEIGHTING	WEIGHTED PERFORMANCE
PROFITABILITY	EBITDA, underlying & directional	50%	75%
GROWTH	Order intake FPSO, TMS and #FEED	30%	17%
HSSE	HSSE=Fleet significant deviations, TRIFR and SDG target completion	20%	30%
TOTAL		100%	122%

*The weighted performance percentages in this graph relate to the CEO. For other Management Board members the performance is 75% thereof.

Underlying directional EBITDA, corrected for restructuring costs, resulted in US\$992 million against target level of US\$900 million. Order intake related to new projects (FPSO, Turret Mooring Systems and contracts positioning the Company to win EPC projects). No new FPSO contracts were secured, but several other contracts were concluded

to contribute to growth of the Company. For reasons of commercial sensitivity, no details about the further order intake achievements are disclosed. Regarding the HSSE targets and Process Safety, a leading indicator measured by Fleet Significant Deviations (45% Reduction vs. 2019 YE baseline), scored above maximum. A TRIFR score of 0.10

was achieved. The targets around the Sustainable Development Goals (#7, #8, #14) were completed at 108% (against the target of 100%).

3. VALUE CREATION STAKE

The Supervisory Board decided to grant the Value Creation Stake for 2020 to the Management Board members in accordance with RP 2018. In November 2020, the 2020 Value Creation Stake award for Bruno Chabas and Erik Lagendijk respectively were adjusted due to their Base Salary increase per January 1, 2020. As per RP 2018, the granted Value Creation Stake vests immediately. The gross annual value for each of the Management Board members is 175% of Base Salary. The number of shares was based on the four year average share price (volume weighted) at the date of the respective grant. The cost of the granted Value Creation Stake is included in the table at the beginning of

this section 3.4.2. The number of shares vested under the Value Creation Stake can be found in section 3.4.3 of this remuneration report under Conditions of and information regarding share plans.

The actual shareholdings of the Management Board members per the end of 2020, in which only conditional shares are taken into account, can be found at the end of the Overview Share-Based Incentives (section 3.4.3). This overview also includes the number of conditionally granted and/or vested shares in the last few years.

4. SHAREHOLDING REQUIREMENT MANAGEMENT BOARD

5. PENSIONS AND BENEFITS

Management Board members received a pension allowance equal to 25% of their Base Salary. In case these payments are not made to a qualifying pension fund, Management Board members are individually responsible for the contribution received and SBM Offshore withholds wage tax on these amounts. For the CEO, two pension arrangements (defined contribution) are in place and its costs are included in the table at the beginning of this section 3.4.2.

The Management Board members received several allowances in 2020, including a car allowance and a housing allowance (Bruno Chabas and Philippe Barril). The value of these elements is included in the table at the beginning of this section 3.4.2 and in section 3.4.3.

3.4.3 OTHER REMUNERATION INFORMATION

Various tables are included in this section, in compliance with the implemented EU Shareholder Rights' Directive into Dutch law. These tables are designed to increase transparency and accountability for the execution of RP 2018 and aim to allow shareholders, potential investors and other stakeholders to better assess Management Board remuneration.

Remuneration of the Management Board by member in thousands of EUR:

The purpose of this table is to show actual total remuneration of Management Board members during the reported financial year. It includes the STI 2020 and the LTI 2017-2019 (which vested in 2020). The relative proportion of fixed and variable remuneration in the reported financial year is also presented, whereas for the purpose of this table, the Value Creation Stake is earmarked as variable remuneration. The total remuneration in 2020 is impacted by the vesting of both the 2017-2019 LTI cycle, granted in 2017, as well as the Value Creation Stake, granted in 2020.

The total remuneration in 2019 is simultaneously impacted by the 2016-2018 LTI cycle, granted in 2016, and the Value Creation Stake, granted in 2019. The 2017-2019 LTI was the last cycle remaining from the former RP 2015.

This table is in line with the current draft Guidelines on the Standardized Presentation of the remuneration report as regards the encouragement of long-term shareholder engagement. Since this table includes former LTI programs, the total remuneration is impacted by the vesting of two separate programs.

Comparative table on the change of remuneration and company performance over the last five reported financial years

In the table below, information on the annual change of remuneration of each individual Management Board member is set out over the five most recent financial years. In addition, the performance of the Company (measured in Directional Underlying EBITDA and TRIFR) is displayed as well as the average remuneration on a full-time equivalent

basis of employees of the Company (calculated in the same manner as the internal pay ratio in this section). Under RP 2015, LTI shares vested three years after award. Under RP 2018, the LTI was replaced by the Value Creation Stake, which vests immediately upon award. As a result, for the years 2018, 2019 and 2020, this table includes both the former LTI vesting and the Value Creation Stake.
